

Pyrocide 100®

Quick Knockdown. Broad-Spectrum Control.

Dual-synergized pyrethrin concentrate for control of 70+ listed pests.

Pyrocide® 100 Fogging Concentrate is an oil-based insecticide designed for indoor control of a broad range of flying and crawling insects. Formulated with botanically derived pyrethrins and two synergists, PBO and MGK® 264®, Pyrocide 100 provides flushing action and quick knockdown. Labeled for use in residential, commercial and industrial facilities, including food-handling establishments, its versatile formulation supports a variety of indoor pest control applications.

Features and Benefits

- Controls 70+ listed pests, including a variety of stored product pests
- Contains 1% botanically derived pyrethrins (Group 3A)
- Supports multiple application methods, including residential space spray
- Labeled for use in federally inspected meat and poultry plants
- May be applied undiluted or diluted with specified oils according to label directions
