

EverGreen® Pyrethrum Concentrate is a broad spectrum insecticide for sensitive accounts.

- Rapidly degrades in sunlight with no residual activity
- Delivers fast, effective control of insects including ants, cockroaches and stored product pests
- Contains pyrethrum – a botanical insecticide derived from a chrysanthemum-like flower
- Food and non-food areas of food handling and processing facilities

Product Specifications

Signal Word	Caution
Packaging	Pints (6 per case), Gallons (2 per case) 55 Gallon Drum
EPA Registration Number	1021-2560
Food Handling	For use in food and non-food areas
Stability of Undiluted Product	Stable
Stability of Diluted Product	Agitation recommended; not required. Mix only enough for immediate use.
Appearance	Clear, amber-brown colored liquid
Odor	Sweet surfactant odor
Active Ingredients	Pyrethrins
Flammability	Not classified as flammable or combustible by OSHA
Mode of Action	Sodium channel modulator – disrupts insects' nervous system
Class of Chemistry	Pyrethrins
Respirator Required	Not required
Mix or Dilute in	Water only
Activity	Quick knockdown and contact kill
Shelf Life	1 year in original commercial packaging stored at room temperature

Use Areas

Indoors in Food and Non-food Areas, such as:

- Apartments
- Attics
- Homes
- Hotels
- Food processing plants
- Food storage areas
- Restaurants
- Wall voids

In and Around Animal and Livestock Facilities including:

- Cattle barns and stalls
- Dairies and dairy stalls
- Horse stables and barns
- Poultry houses

On-animal Use for Chickens and Turkeys

Outdoor Use In and Around Areas, such as:

- Exterior of homes and other buildings
- Gardens
- Kennels
- Nurseries
- Outdoor eating establishments

Indoor and Outdoor Use on:

Greenhouse
Crops
Landscape plants
Ornamental trees and shrubs
Stored grain and seed

Method of Application

- Crack and crevice treatment
- Premise and surface spray: fine spray, mist, coarse wet spray
- Space spray/fog using a ULV cold fogger
- High-volume applications: lawn and landscape

Best Practices when using EverGreen® Pyrethrum Concentrate

- Use EverGreen Pyrethrum Concentrate as part of an IPM Program.
- Please review the label for all required Use Restrictions and Personal Protective Equipment (PPE) requirements.
- It is recommended that the final spray mix be buffered to a pH of 5.5-7.0. Outside of this range pyrethrins can degrade and the product will lose effectiveness.
- To avoid possible harm to honey bees and other beneficial insects, it is advisable to apply when the non-target insects are least active.
- Pyrethrins degrade rapidly in sunlight. To ensure the best performance, coverage is key. Use spray equipment that will provide the best coverage and direct contact with as many insects as possible.

Always read and follow label and SDS directions.

Key Insects and Pests Controlled

EverGreen Pyrethrum Dust is labeled for control of insects and pests including:

Angoumois Grain Moths
Ants (excluding fire and Pharaoh ants)
Aphids
Apple Maggots
Armored Scales
Armyworms
Artichoke Plume Moths
Asparagus Beetles
Beet Armyworms
Bagworms
Bean Beetles
Beetles
Bermudagrass Mirids
Billbugs
Blister Beetles
Blow Flies
Boll Weevils
Boxelder Bugs
Branch and Twig Borers

Brown Dog Ticks
Cabbage Loopers
Cabbage Maggots
Cadelles
Cankerworms
Carrot Weevils
Caterpillars
Chalcids
Cheese Skippers
Cherry Fruit Flies
Cigarette Beetles
Clover Mites
Clover Weevils
Cockroaches
12-spotted Cucumber Beetles
Codling Moths
Colorado Potato Beetles
Confused Flour Beetles
Corn Earworms
Crickets
Crane Flies
Cross-striped Cabbageworms
Cucumber Beetles
Dark Mealworms
Darkling Beetles (lesser meal worm)
Diamondback Larvae and Moths
Dried Fruit Beetles
Drugstore Beetles
Earwigs
Eastern Tent Caterpillars
Elm Leaf Beetles
Eriophyd Mites
European Pine Tip Moths
Fire Worms
Fleas
Flea Beetles
Forest Tent Caterpillars
Fruit Flies
Fruit Tree Leaf Rollers
Fruitworms
Fungus Gnats
Garden Symphylan
Glassy Winged Sharpshooters
Gnats
Grain Mites
Grape Leafhoppers
Grape Leaf Skeletonizers
Grape Mealy Bugs
Grasshoppers
Green Bugs
Greenhouse Thrips
Green Fruit Worms
Green Peach Aphids
Gypsy Moths (adults & larvae)
Harlequin Bugs
Heliothis spp.
Horn Flies
Hornworms
House Flies
Imported Cabbageworms
Indian Meal Moths
Japanese Beetles
Katydids
Lace Bugs
Leaf-footed Plant Bugs
Leafhoppers
Leafminers
Leafrollers
Leaftiers
Lice
Loopers
Lygus
Maggots
Mealy Bugs
Mediterranean Flour Moths
Mexican Bean Beetles
Midges
Millipedes
Mites
Mole Crickets
Moths
Mushroom Flies
Navel Orangeworms
Olive Fruit Flies
Onion Maggots
Orange Tortrix
Pacific Flatheaded Borers
Pear Psyllids
Pepper Weevils
Pink Bollworms
Potato Leafhoppers
Potato Tuberworms
Poultry Lice
Proba Bugs
Psyllids
Red Flour Beetles
Rice Weevils
Saltmarsh Caterpillars
Saw-tooth Grain Beetles
Scales
Sharpshooters
Sheep "Tick" or Ked
Shore Flies
Shot Hole Borers
Silverfish
Skippers
Small Flying Moths
Soft Scales
Southern Chinch Bugs
Sow Bugs
Spiders (excluding Brown Recluse Spiders)
Spider Beetles
Springtails
Squash Bugs
Stable Flies
Stink Bugs
Tobacco Moths
Tarnished Plant Bugs
Thrips
Tomato Budworms
Tomato Bugs
Tomato Fruit worms
Tomato Hornworms
Tomato Pinworms
Tomato Russet Mite
Tussock Moths
Vinegar Flies
Vine Mealy Bugs
Webworms
Weevils
Western Yellow-striped Armyworms
Whiteflies
Yellow Mealworms
