Sumari™ Insecticide, a non-repellent insecticide, provides fast-acting and long-lasting residual control of ants and a broad spectrum of other insects.

- Kills and controls ants, including multi-queen species, for up to three months
- Contains NyGuard® IGR insect growth regulator
- Dual mode of action
- Kills wide variety of labeled pests
- For indoor and outdoor use, including outdoor broadcast
- Apply up to four times per year at the low rate
- Convenient all-in-one product

### Use Areas

**Indoor and Outdoor Non-food Areas of:**
- Residential homes
- Commercial buildings
- Restaurants
- Warehouses or industrial buildings
- Food processing plants
- Food service establishments
- Campsites/campgrounds
- Animal housing and zoos

**Outdoor Perimeter Treatments to Exterior Walls, Foundations and Structures:**
- On Trees, Lawns, Landscapes and Turf

### Method of Application

**Outdoor:**
- Broadcast spray treatment
- Crack and crevice treatment
- Foliar spray treatment
- Spot treatment
- Structural perimeter treatment
- Surface spray treatment

**Indoor:**
- Crack and crevice treatment
- Spot treatment

Best Practices when using Sumari® Insecticide

Dilute with water only
The product is only intended for dilution in water, not oil.

Test the surface first
Sumari Insecticide may be sprayed on any surface that will not be stained by water. If you are concerned about staining or are not sure if a surface is water safe, test the surface by spraying a small amount in an inconspicuous area before making a broad application.

Mixing tip
Clean equipment before and after use. Agitate the container of Sumari Insecticide before diluting by inverting it several times. For dilution, add approximately half the required water to the tank and then add the appropriate amount of Sumari Insecticide. Agitate and slowly add the remaining water. Agitate the mixture thoroughly before using and occasionally during use to ensure dispersion.

Key Pests Killed
Centipedes
Fleas
German cockroaches
House flies
Mosquitoes

Key Pests Killed and Controlled
Ants (including red imported fire ants, harvester, pharaoh, carpenter ants)
Aphids
Asian lady beetles
Boxelder bugs
