

Onslaught® FastCap Microencapsulated Insecticide provides fast-acting and long-lasting residual control for a broad spectrum of production animal pests.

- Kills flies, mosquitoes, fleas, ticks, spiders, darkling beetles and other listed insects
- For use in and around barns, calf hutches, milk rooms and other livestock areas
- Fast-acting microencapsulated formula
- Combines quick kill and residual control
- Use rate: 0.5 – 1.0 oz per 1,000 sq. ft. depending on target insect – see product label for insect specific use directions
- Includes a synergist to help prevent resistance
- May be mixed with NyGuard® IGR for extended residual control
