

SUMARI
insecticide

One Product. More Possibilities.

Broad-spectrum insecticide for residential, commercial, and food-handling accounts.

Sumari® Insecticide is a versatile insecticide for control of ants, German cockroaches, and a broad spectrum of other insects in residential and commercial accounts. Featuring dual modes of action and NyGuard® technology, Sumari is designed to help PMPs get the job done right the first time.

Features and Benefits

- Controls ants indoors and outdoors up to 90 days
- Kills ant colonies and helps prevent reinfestation
- Approved for use in food-handling establishments
- Low rate contains pyriproxyfen at levels comparable to NyGuard tank-mix applications
- Non-repellant insecticide that is also labeled for outdoor broadcast use*

Packaging

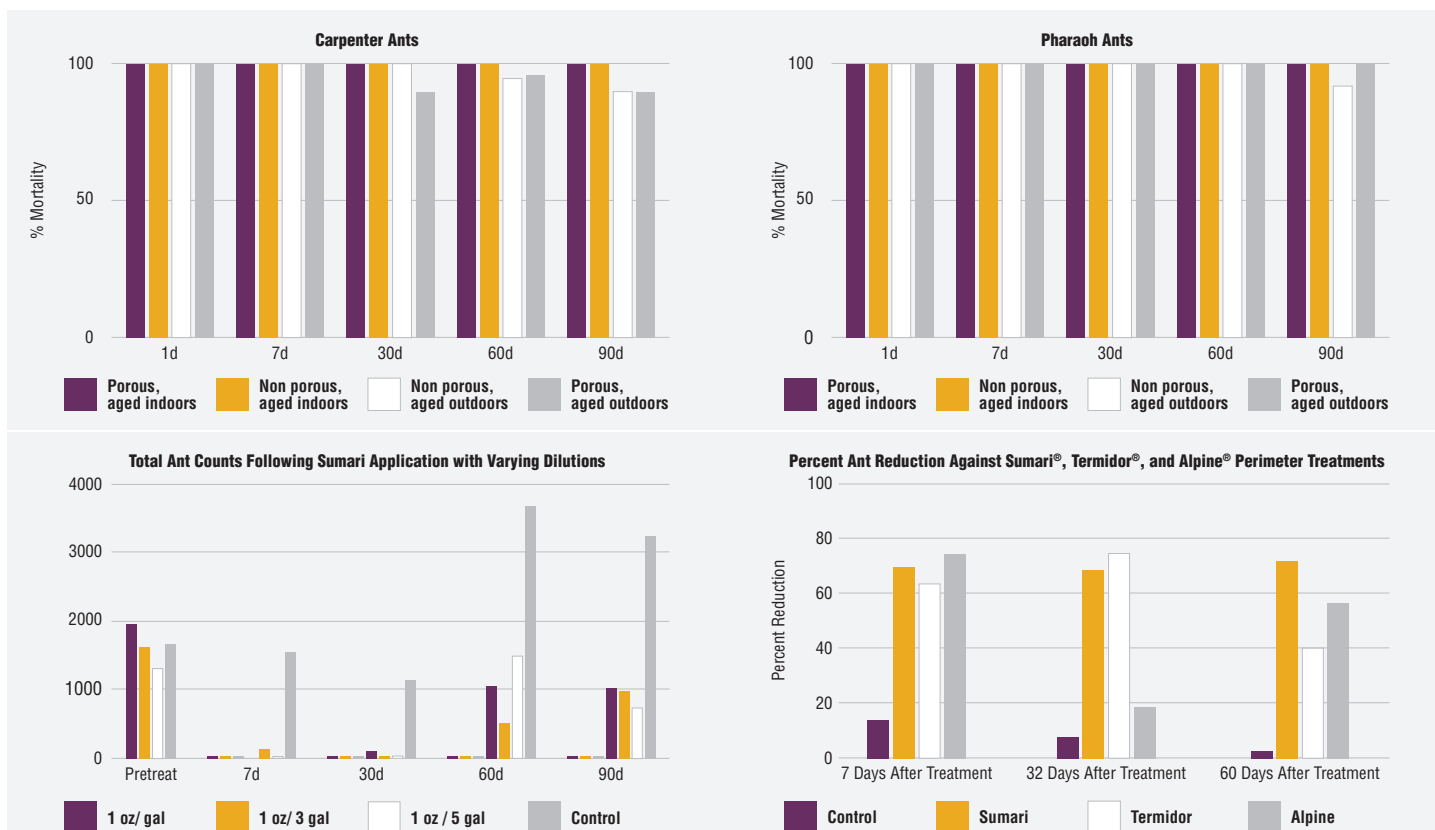

- 1 pint unit (6 per case)
- 1 gallon unit (2 per case)

What Does This Data Mean for Your Business?

Sumari delivered consistent ant control across species, surfaces, and treatment environments. In field studies, it provided up to 90 days of control and reduced ant populations more effectively than leading competitive treatments 60 days after application. This performance helps maintain control between service visits and deliver reliable results for customers.

German Cockroach Mortality on Treated Ceramic Tiles

What Does This Data Mean for Your Business?

In this study, Sumari maintained high German cockroach mortality through 90 days after treatment and outperformed the competitive standard across all evaluation periods. With approved use in food-handling establishments, Sumari offers a versatile option for cockroach control in a variety of treatment environments.
