

ULD[®] BP-100

Contact Insecticide II

Broad-Spectrum Contact Control

Botanical insecticide for use in food handling, commercial, and residential establishments.

ULD[®] BP-100 Contact Insecticide II is a versatile concentrate containing synergized botanical pyrethrins (Group 3A) that kill listed crawling and flying insects by contact. With multiple application methods and a label that includes commercial and residential use sites, ULD BP-100 helps treat a wide variety of indoor accounts with a single product.

Features and Benefits

- Controls over 70 insects including flies, lice and cockroaches
- Synergized with Piperonyl Butoxide (PBO) to enhance insect control.
- Use full strength or dilute according to label directions to meet application needs.
- Labeled for use in food handling establishments, including USDA-inspected facilities.
- Flexible application options, including direct spray, crack and crevice, spot, and void treatments.

Packaging

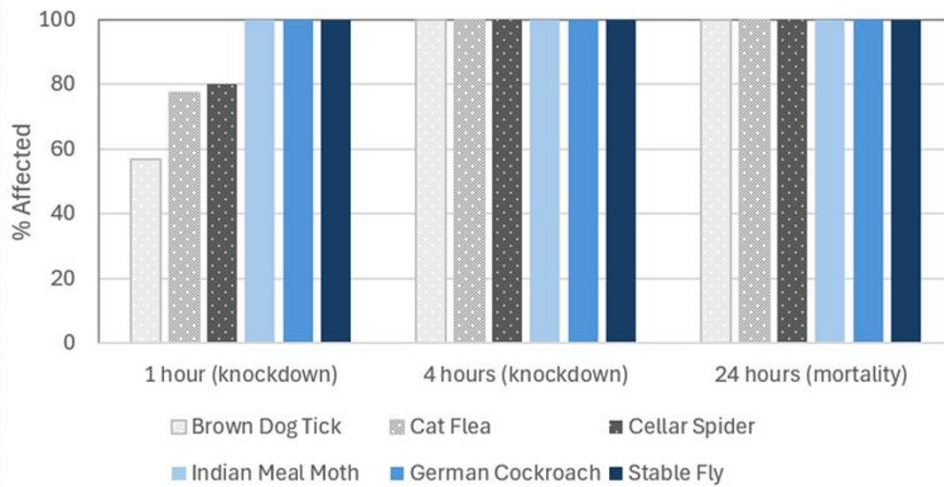

- 1 gallon bottle (4 per case)
- 55 gallon drum
