

CONQUER YOUR TOUGHEST PEST CHALLENGES

For over 100 years, MGK® has been perfecting the science of insect control. Whatever challenge you're up against, we're ready to help you fight the battle and emerge victorious.

Bedlam® is specially designed to kill and control bed bugs in the toughest hiding places. Labeled for use on headboards, box springs and mattresses, this water-based product won't stain water-safe fabrics and is non-irritating to humans and animals.

Bedlam® Plus features dual modes of action that kill even the toughest, pyrethroid-resistant bed bugs. The perfect combination of quick kill and residual control, the product is proven to continue working for two weeks after treatment.

CrossFire® Aerosol is the only bed bug product with three active ingredients providing longer-lasting control. The patented formula provides fast knockdown and kill at all bed bug life stages, including pyrethroid-resistant bed bug strains.
