MGK Expands EverGreen® ULV 5-25 Portfolio with Water-Based Formulation

New EverGreen 5-25 Aqua ULV provides mosquito abatement agencies with a flexible solution to control adult mosquitoes.

Minneapolis, MN – Leading insecticide manufacturer MGK is excited to announce the launch of EverGreen 5-25 Aqua ULV, a water-based insecticide formulated to kill mosquitoes. EverGreen Aqua is labeled for use only by Federal, State, Tribal, or local government officials responsible for public health and vector control, or by certified applicators.

“Protecting communities from mosquito-vectored diseases requires solutions that are effective, adaptable and easy to apply,” said Steve Gullickson, president of MGK. “With EverGreen 5-25 Aqua ULV, we are providing mosquito abatement agencies with an additional option that aligns with their operational needs while delivering the trusted performance of the EverGreen 5-25 brand. This launch reflects MGK’s continued commitment to supporting public health agencies and helping protect the communities they serve.”

EverGreen 5-25 Aqua ULV key features include:

- Kills mosquitoes
- Formulated with botanically based pyrethrin
- Synergized with piperonyl butoxide (PBO) to combat metabolic resistance
- Labeled for both aerial and ground applications

The EverGreen 5-25 brand is built on the combination of botanical pyrethrin and a synergist to deliver mosquito control. Designed for mosquito abatement agencies, the EverGreen 5-25 portfolio is labeled for use in residential, industrial, recreational, agricultural and other areas where adult mosquitoes are present.

Designed to meet the evolving needs of mosquito abatement agencies, EverGreen 5-25 Aqua ULV is the newest addition to the EverGreen 5-25 portfolio, offering the same proven performance in a water-based formulation suitable for both aerial and ground applications.

For availability, contact your local distributor or MGK sales representative.
