

Onslaught® **FASTCAP** Spider & Scorpion Insecticide

Multiple Insects. One Powerful Solution.

Fast Acting. Quick Kill. Residual Control.

Onslaught® FastCap Spider & Scorpion Insecticide delivers fast-acting knockdown and residual control of listed residential and commercial pests. Its microencapsulated controlled release formulation combines esfenvalerate and prallethrin (Group 3A) with piperonyl butoxide to provide an easy, one-step approach to pest control in a range of indoor and outdoor use sites.

Features and Benefits

- Kills over 150 pests, including spiders, scorpions, cockroaches, fleas, and mosquitoes, including the Aedes mosquito that may carry and transmit Zika virus
- Microencapsulated residual insecticide and knockdown for enhanced control
- Synergized with piperonyl butoxide (PBO) to enhance the performance of active ingredients
- Flexible application options including indoor and outdoor broadcast

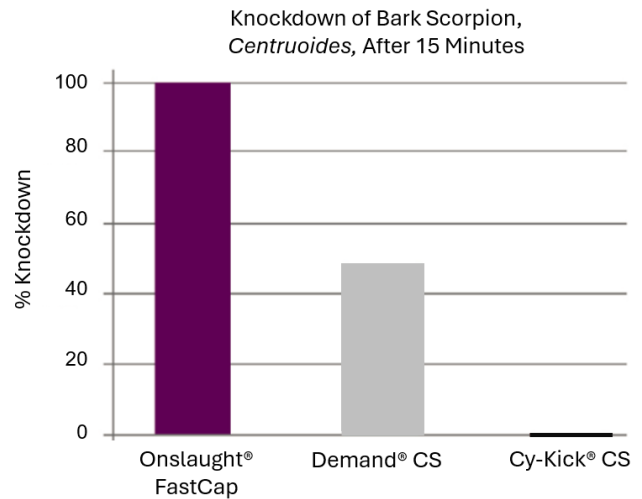

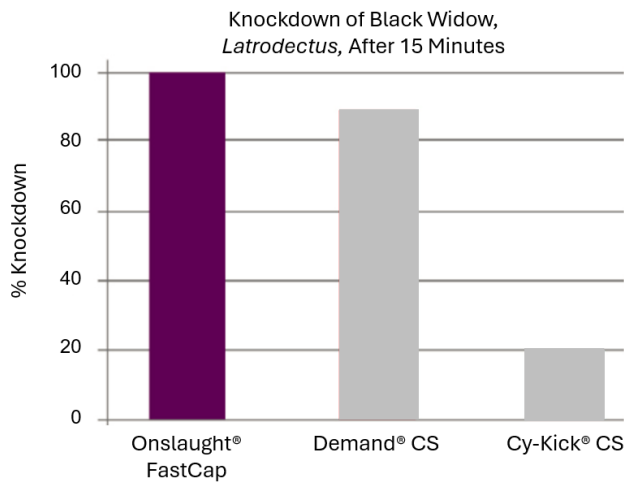

Packaging

- 8 ounce bottle (12 per case)
- 1 pint bottle (6 per case)
- 1 gallon bottle (2 per case)
- 30-gallon drum

What Does This Data Mean for Your Business?

Onslaught FastCap features microencapsulated esfenvalerate designed to deliver residual control. Each microcap has a semi-permeable outer shell and a spongy interior that allows the active ingredient to be released over time, supporting extended residual performance. Both the residual active ingredient and the microcaps themselves can be picked up by pests as they move across treated surfaces. A range of microcap sizes helps target a broad spectrum of pests—from ants and mosquitoes to scorpions—providing consistent performance in real-world application environments and making Onslaught FastCap a practical, cost-effective choice for broad-spectrum pest control.
