

The Heavy Hitter in Your Rotation

Highly Palatable Bait That Kills Roaches Where They Hide

Vendetta® Nitro combines two modes of action (Group 4 and Group 7C) to target both visible and hidden cockroach populations. The palatable bait matrix attracts both bait-averse and non-averse cockroaches. Designed for heavy German cockroach infestations, this easy-to-use bait plays a key role within the Vendetta rotation, providing a go-to option for more severe infestations when timely control is needed.

Features and Benefits

- Consistent performance across a range of dietary conditions
- Contains NyGuard® IGR to help prevent reproduction and support population management
- For use in residential, commercial, and industrial sites, including food and non-food areas
- Kills roaches where they hide, including German, American and Brownbanded

Packaging

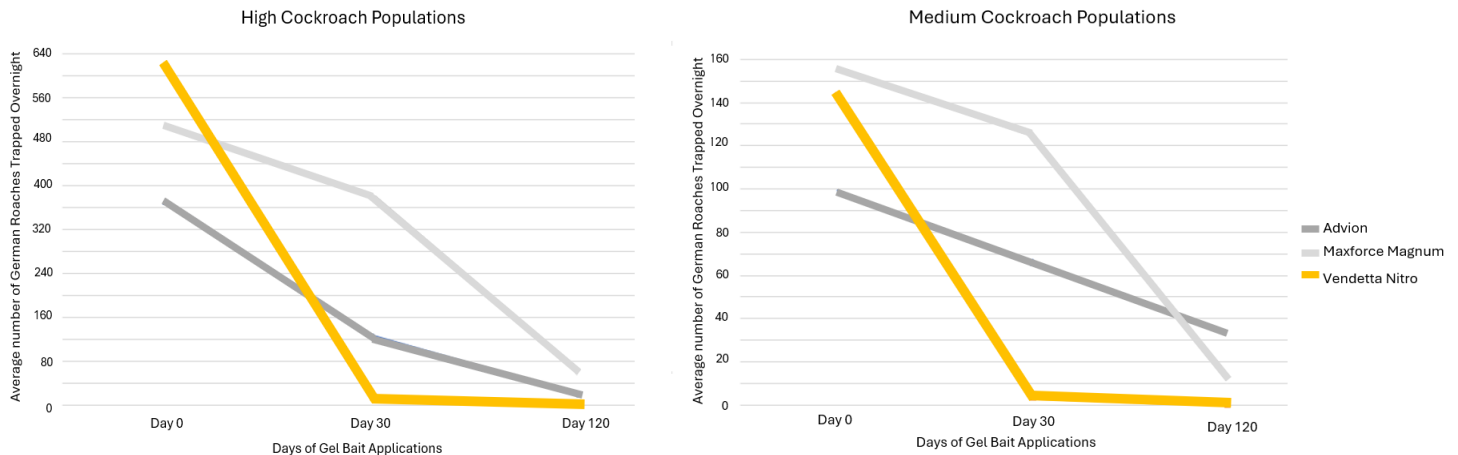

- Clamshell unit (4 x 30 gram tube, 5 per case)

What Does This Data Mean for Your Business?

Vendetta Nitro provides effective control of German cockroach populations in both high and medium infestation scenarios. With strong early impact and consistent performance, it supports control of active infestations and helps reduce the need for call backs.

Bring Your Rotation Full Circle

The Vendetta portfolio is designed for use in rotation to help manage bait aversion and support control across a range of infestation levels. Vendetta Nitro® plays a key role in this approach, offering a solution for heavy infestations within a comprehensive bait rotation strategy.
