

**Vendetta[®]
PLUS**
COCKROACH GEL BAIT

Break the Life Cycle at Every Stage

Delivers Reliable Control, Even in Bait-Averse Cockroaches.

Vendetta[®] Plus combines two modes of action (Group 6 and Group 7C) to kill German cockroaches where they hide. Its highly palatable bait matrix is effective on both bait-averse and non-averse populations. Designed for ease of use, Vendetta Plus delivers reliable control—even in severe infestations. Ideal for use in rotation with other Vendetta baits as part of a comprehensive resistance management program.

Features and Benefits

- Breaks the life cycle of German cockroaches to help reduce populations by preventing reproduction
- For use in residential, commercial, and industrial sites, including food and non-food areas
- Kills American, German and brown-banded cockroaches
- Formulated without Big 8 allergens (contains soy)

Packaging

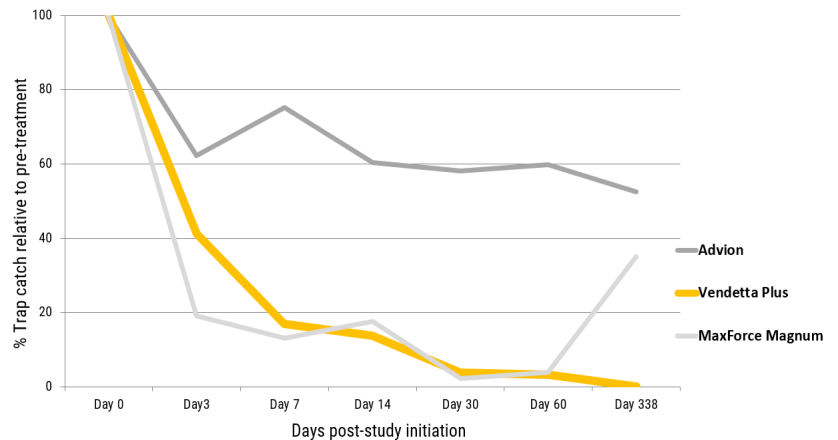

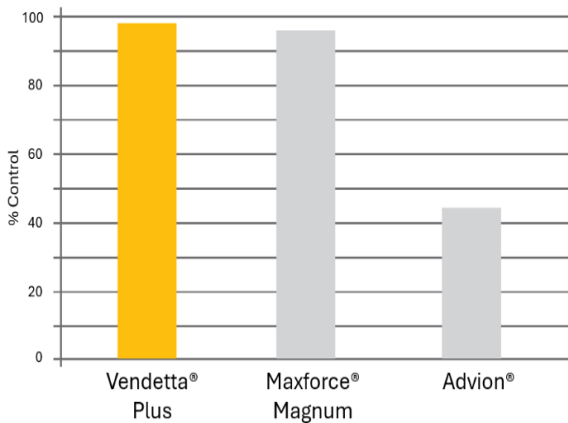

- Clamshell unit (4 x 30 gram tube, 5 per case)

What Does This Data Mean for Your Business?

Vendetta Plus matches or outperforms leading cockroach baits in field studies after 60 days and was the only bait to achieve complete elimination with no population rebound. With easy application and consistent performance across a wide range of dietary conditions, it attracts and kills both bait-averse and non-averse cockroach populations.

The Vendetta Bait Rotation System

Part of the Vendetta family of baits, Vendetta Plus is designed for medium level infestations to help you gain control of a population. The Vendetta portfolio delivers a solution for control at every level of infestation and supports effective bait rotation to manage resistance.

Always read and follow all label instructions. For any medical or safety questions, concerns or incident reports, call 1.888.740.8712.
